## Addendum to The Weekly Communiqué

**April 26, 2019**

### **Announcement on the Advisement Structure Study**

In 2018, the Office of Academic Affairs requested that the Office of Advising Strategies and the Division for Human Resources conduct an extensive study of advising across campus. After a thorough analysis, a new classification structure was developed for all staff positions providing academic advisement or student support services. The study is now in its final stages and the project team anticipates implementing the new job classification structure within the next few weeks.

Individual notifications to supervisors and employees are underway. Additionally, Q&A Sessions will be held for those with questions regarding the rationale, process, and impact of the study. Additional information can be found on the project website at this link:

<https://hr.unm.edu/compensation/advisement-structure-study>.

Official notifications will be sent to supervisors and employees by April 30, and changes will be implemented on May 1 for exempt positions and May 11 for non-exempt positions and positions changing exemption status.

If you would like to attend the Q&A Sessions you can [sign up here](#) for either of the following sessions:

- Friday, May 3, 10-11:30 a.m. in the John & June Perovich Business Center, Room 1016
- Monday, May 6, 2:30-4 p.m. in the John & June Perovich Business Center, Room 1018

Richard L. Wood

**Interim Provost & Executive Vice President for Academic Affairs**  
**Professor of Sociology**
