Making changes to your account

To make changes to your contribution amount, simply click on the *Contributions* tab and complete the online form. To make after-tax Roth contributions, check the box next to “Split between pre-tax and Roth contributions” after you’ve entered in your chosen contribution amount.

Once you’ve entered your contribution amount, you will be asked to choose your investment provider(s). You can elect to have the entire contribution go to a single provider, or multiple providers. Just enter the percentage that should go to each, ensuring that the total election equals 100%.

*Students and certain employees are not eligible to participate.
