Clicking the TIAA button on Retirement@Work will take you directly to TIAA’s participant website. Once on the site, follow these steps to open an investment account:

**Step 1:**
Confirm and update your personal information as needed.

**Step 2:**
Choose one of these three options to make your investment choices:

- **Choose for me.** Your contributions will be invested in the lifecycle mutual fund with the year closest to the year you turn 65. For example, if you will turn 65 in 2044, contributions will be directed to the Lifecycle 2045 Fund. Of course, you can choose a fund with an earlier or later date based on your needs.

- **Help me choose.** With this option, you’ll select your tolerance for investment risk along a scale. Then a mix of investments will be suggested based on your selection. Note: You’ll still choose the individual investments.

- **Choose my own.** You’ll make your selection from the list of available investments.

Whichever option you choose, follow the instructions in the orange buttons to complete the selection process.

**Step 3:**
Enter your beneficiary information. Then click Review and Continue.

**Step 4:**

If you try to log in and the system gives you an error message, this simply means that Fidelity hasn’t yet received information from TIAA/University of New Mexico to set up your account. Please wait a few days and try again.

Once you have registered and have your username and password established, all you need to do to enroll at Fidelity is make your investment elections and designate your beneficiaries. You have already entered information into Retirement@Work regarding how much you would like to contribute into the plan. That information will be sent to Fidelity. You will not be able to enter any contribution (deferral) information on the Fidelity system. Any future changes to your contribution amount will be made through the Retirement@Work system at TIAA.

Step 5:
To make your investment elections, log in to Fidelity NetBenefits® at www.netbenefits.com/atwork and enter your username and password in the black toolbar that you’ll see at the top of your page and then click Login as shown:

Step 7:
Then you can select Change Investment Elections under Future Investments to set up your investments for future contributions.

Step 6:
Select the plan you want to make the investment elections for and then use the Quick Links to select Change Investments. You will need to make investment elections for each plan in which you are a participant.

Step 8:
To set up your beneficiaries online, simply click Profile on the blue toolbar at the top of the page.
